## WHY ARE WE DRILLING HAND PUMPS?

According to UNICEF, 40 children in Nepal die each day, because of drinking impure, arsenic water.

So in this year 2021 PRB Ministry has drilled hand pumps in the border regions and the mountains regions among Bhojpuri and Dalit communities' total 15 hand pumps. By this 15 hand pumps around the 840, families have received safe and clean water in their own villages. These people had no choice but to drink polluted water, which they collected from ponds drain and rivers. They could not have imagined drilling Wells by themselves because of their poverty.

## FREE EDUCATIONS

**Relief has been distributed for 1000 of people to those affected by natural disasters and covid epidemics.**

The history of the Dalit caste's education in Nepal was such that if anyone in the Dalit caste was found to have read, there was a rule to give him cruel pain. They had been punished, by heating melting glass in the fire on their ears. Due to which the Dalit community in Nepal is still backward. And are poor. So now we are giving free education to the 80 children in Rithepani village. Especially focusing to poor, backward lower caste Dalits orphan and poor Children to give free education.
